ABOUT US

KAT VR (KAT VR TECHNOLOGY CO., LTD.)

We are a leading VR equipment development company based in Hangzhou, China. Our main areas of interest are Virtual Reality interactive experiences, ergonomics design and motion capture.

Our flagship product is the KAT WALK, the world's first VR ODT product to offer infinite motion in a VR environment, and one of the very few ODT products currently in development worldwide. KAT WALK VR ODT commercial package includes everything you need to get the best experience out of our technology.

Through close cooperation between our scientists, developers and engineers, and inspired by a passion for technology and a belief in VR, we are ready to offer the world a true, integrated and immersive Virtual Reality experience.

2

WHAT MAKES THE KAT WALK SPECIAL?

The KAT WALK VR Omni-directional Treadmill is an innovative VR device designed by KAT VR. This ODT provides smart solutions to three major VR obstacles: space limitation, free-movement safety concerns and motion sickness.

- The KAT WALK is the world's first unrestrained infinite space VR system
- It allows total freedom of movement in the virtual world while keeping you grounded and safe in the real one
- It is adjustable to different body types
- It has multiplayer support
- It tracks three independent motion signals (head, body and feet/legs)
- It tracks the motion signals with virtually no delay
- Its modular design is elegant and simple

3

WHAT IS THE KAT WALK PACKAGE?

The upgraded KAT WALK, launched by KAT VR in 2017, can be purchased as a part of the KAT WALK package tailored to our business and arcade clients. It contains a full set professional VR equipment as well as a group of high-quality games designed especially for the KAT VR technology and it has the support of our own game distribution service. Our KAT VR software platform runs on an easy-to-use Windows environment installed in our touch-screen KAT STATION computer.

We also offer a professional after-sale service and tech support as a part of this package, available to clients who are at any stage of their business cycle – whether they are established VR companies, entrepreneurs looking to invest in new technologies or arcade owners looking to diversify their VR attractions with new and exciting experiences.

Complete set of professional VR equipment

- KAT WALK VR omni-directional treadmill
- KAT SHOES/ SHOE COVERS for all sizes
- KAT FIRE VR accessory for the HTC Vive controllers
- KAT STATION operation center and PC
- HTC VIVE Business Edition headset and controllers

NO additional equipment required

NO high technical barriers

Complete set of professional VR equipment

KAT WALK VR Omni-directional treadmill

While guaranteeing your safety with the use of a waist belt, users can naturally and intuitively walk, run, jump, and crouch in the KAT WALK. These movements are then accurately tracked and mapped onto the virtual environment, eliminating motion sickness and allowing users to enjoy the true immersive experience of Virtual Reality.

Complete set of professional VR equipment

KAT WALK Omni-directional Treadmill

Complete set of professional VR equipment

HTC VIVE Business Edition Headset

The KAT WALK is technically compatible with most mainstream VR headsets currently on the market (including the Oculus Rift) but we recommend the use of the HTC VIVE in order to get the best possible experience and you can purchase it as a part of our KAT WALK package.

For more details about the HTC VIVE please refer to the official website:<https://www.vive.com/cn/>

Quality custom games with up-to-date support

In addition to our own in-house development team, KATVR has also established partnerships with different VR content companies to develop VR content compatible with the KAT WALK. These entertaining and immersive games and experiences vary in length and genre, including FPS (PVP/PVE/Multiplayer), adventure, escape rooms, virtual-education and virtual-fitness.

Touch screen operating system

Our touch screen operating system has been developed to make the KAT WALK fun and simple to use. Combined with our software platform, the system removes any high technological barriers to releasing the full potential of the KAT WALK.

Professional after-sales service

Our professional after-sales service team for the KAT WALK provides high quality services backed by our library of product information, product support, service policy, brand management and customer development for our clients.
